

— STRATEGIC TALENT ACQUISITION

A recruitment process built on precision.

How we find, screen and deliver the right candidate — every time — across construction, engineering and insurance.

Simon Bloom

Founder, ConstructEng Australia · 1300 AUSJOB · simon@constructeng.com.au

— A PARTNERSHIP, NOT A TRANSACTION

What you get when we work together.

Every search starts with understanding the role properly — the team, the person, and what genuinely differentiates the opportunity. From there, we run a consistent, evidence-based process so every hiring decision is backed by structured, comparable evidence rather than gut feel.

01

Clear timelines

You'll know upfront whether a search is passive, proactive, or both — and what to expect at each stage.

02

Evidence-based screening

Every candidate is assessed against the same structured criteria, not impressions.

03

Full visibility

Tracking sheets and shortlist ratings mean you always know where a search stands.

04

Discretion when it matters

Sensitive and executive searches run confidentially, without your name attached until a candidate opts in.

— SOURCING STRATEGY

Two paths — matched to your role.

The right approach depends on role seniority, market scarcity, and urgency — often, it's both at once.

— PASSIVE

Advertise & Attract

- High-volume job boards for maximum reach and stronger shortlisting control
- Careers page promotion shared across professional networks
- Best for well-defined roles with a strong likely applicant pool

— PROACTIVE

Search & Headhunt

- Direct market mapping and targeted search via professional networks
- Warm outreach to passive candidates who aren't actively looking
- Best for senior, niche, or historically hard-to-fill roles

— SCREENING

Rigour before a single interview happens.

Every application is assessed against a consistent lens before any conversation takes place — so the candidates you meet are genuinely worth your time.

Career longevity and stability at previous employers	Relevance of previous roles and employers to the position
Specificity — real duties and achievements, not just job titles	Qualifications, work rights, and location fit
CV clarity, organisation and presentation	Whether the cover letter is tailored or generic

— SCREENING

The structured first-round screen.

Every shortlisted candidate gets the same first conversation, covering:

Motivation & role fit	Career drivers & reason for leaving	Two capability questions
Job-search urgency	Salary expectations	Notice period & planned leave
Work rights	Flexible-working needs	Interview accommodations

Preferred candidates then meet the hiring team in person, evaluated on the same structured basis.

— PROACTIVE SEARCH · STEP 1

Start with what already exists.

Before a single new search is run, we check what's already known:

1. Review previously interviewed candidates for this or adjacent roles
2. Review previous applicants who may now be a stronger fit
3. Ask the hiring team for names worth revisiting
4. Check tracking spreadsheets for flagged future-interest candidates

— PROACTIVE SEARCH · STEP 2

Building the shortlist.

01 Build the search

A dedicated project is created and targeted profiles identified across professional networks.

02 Shortlist & rate

You review each profile — a simple Good Fit / Not a Fit call — before any outreach happens.

03 Track & share

A live tracking sheet keeps you updated on progress at every stage, no chasing required.

— DISCRETION WHEN IT MATTERS

Confidential & executive searches.

For sensitive or senior appointments, discretion protects everyone involved. Target candidates are approached by an independent contact who does not disclose the engaging organisation until the candidate confirms genuine interest — at which point they're asked to sign an NDA before any further detail is shared.

- No employer name disclosed upfront
- Ideal for replacing a current incumbent discreetly
- NDA-protected once a candidate opts in
- Protects candidates who are currently employed

— WHO WE ARE

25+ years placing the people who build Australia.

Founded by Simon Bloom in 2009, ConstructEng Australia grew into a six-consultant recruitment brand with a LinkedIn network of over 15,000 industry professionals — spanning construction, engineering and insurance.

— WHAT CLIENTS SAY

Trusted across Sydney Metro, Transport for NSW & more.

“

"Your experience, organisation, forward planning and prompt actioning of requests has made it a delight working with you — it is the best recruitment service I have personally experienced."

Louise Howard

Executive Director, Sydney Metro

“

"Simon's network within the infrastructure and construction industries is second to none. He brought deep industry insight to both the internal clients and candidates he worked with."

Alexander (Alex) Burr

Partner at Future Leadership, formerly Transport for NSW

— LET'S TALK

Let's talk about your next hire.

A structured, evidence-based process — built to find the right person, not just a fast one.
